Front Royal, Virginia

---

## RELEVANT EXPERIENCE

### **Full-Stack Developer** — *IMS, LLC (2023 - Present)*

- Designed, built and delivered both the frontend and backend of custom sites to production
- Leveraged Next.js, Tailwind CSS and Strapi Headless CMS to allowing clients to make easy page content updates to their custom frontend, eliminating the need to utilize a heavy CMS such as WordPress or MODX
- Used cutting-edge On-Demand Static Revalidation in Next.js 12 and Strapi webhooks to provide real-time content updates on a per-page basis without the need to rebuild the entire site, saving on cloud resources
- Implemented a TypeScript project framework which created a coherent and readable API structure, speeding up development and reducing shot-in-the-dark API calls
- Created project reference architectures to easily spin up and develop multiple projects simultaneously
- Automated routine web maintenance tasks with Python, saving hours of client retainer time

### **.NET Developer** — *Engage FI (2022)*

- Designed, built and deployed a custom testing suite leveraging .NET and Microsoft Playwright, automating UI functionality testing for an enterprise-class fintech web app built in Blazor
- Utilized CI/CD via Azure DevOps to automatically test each new build at release, avoiding time-consuming manual testing

### **Power Platform Developer** — *Virtual Service Operations (2020 - 2022)*

- Designed, built, and distributed sleek business intelligence and data visualization tools using Microsoft Power BI and Power Apps
- Built a mobile app which provided real-time KPIs of networking projects for multiple sites, including worked hours, individual task progress, and product inventory metrics
- Tracked and managed inventory and installation statuses of over 8,000 network switches

## TECHNICAL SKILLS

TypeScript, JavaScript, React, Next.js, Node.js, Tailwind CSS, Strapi, HTML, SEO Optimization, C#, SQL, MySQL, RESTful APIs, Python, Power BI, Jira, Azure DevOps, CI/CD, Docker, QA, Automated Unit Testing, UI/UX Design, Git, AWS CodePipeline, DRY principle

## PROFESSIONAL CERTIFICATIONS

AWS Certified Cloud Practitioner - Foundational
